Position Summary:
The Veterinary Teaching Hospital (VTH) at Colorado State University (CSU) seeks to fill a flexible after hours position for the Anesthesia service. The individual in this position will be dedicated to providing after hours/weekend anesthesia coverage. The primary responsibility is to cover anesthesia for emergency procedures in all species presented to Colorado State University, Veterinary Medical Center. Yearly coverage for afterhours/on call anesthesia will be shared by this posted position, current on call employee and the anesthesia resident. With majority of yearly responsibility and weekly/weekend hours will be shared between this position and our current on-call employee. Holiday coverage will be expected and equally divided between all on-call individuals. This individual will also be responsible for covering any swing shift hours (starting at 4:30 pm weekdays) during their scheduled night of on-call. The ability of the applicant to vary their schedule is essential to their success in this position.

Education/Work Experience:
Minimum qualifications for this position include a Bachelor’s degree and two years of primary anesthesia experience. A doctor of veterinary medicine is preferred. Preference will be given to individuals with a background in anesthesia or critical care case management.
