Nutrition Service History Form:

Please return to completed form to: vetclinicalnutrition@colostate.edu

Primary care veterinarian name:
Address:
Phone number:
Email:
Have you notified your veterinarian about contacting us?
Do we have permission to contact your veterinarian?

Client name:
Address:
Phone number:
Email:

Pet's name: _____ Dog/Cat/Other: _____

Age: _____ Gender: _____

Breed: _____ Intact/neutered: _____

Bodyweight: _____ Date bodyweight measured: _____

Is the pet generally healthy? Yes No

If no, what medical conditions has the pet been diagnosed with?

Medical diagnosis	Date of diagnosis	Has the condition been resolved?

If the pet is has been diagnosed with medical conditions that have not completely resolved, please have your veterinarian fill out the medical history form and provide a complete blood count (CBC), biochemistry profile, and urinalysis from the past 12 months or earlier. Additional tests may be requested as required to ensure diet selection and/or formulation are appropriate.

*As some medical conditions may not be obvious, we strongly recommend to provide current lab results for all pets

Is the pet receiving any medications currently? If so which ones and at what dose?

Does the pet regularly have either vomit or diarrhea? Yes No

If yes, please describe consistency and frequency.

Do you have any additional pets? If so please specify species and age of other pets.

Please describe the pet's daily activity (for example-walks, play time with other dogs, etc.)

Please describe the pet's daily diet:

1. How many meals a day does the pet eat? _____

2. Does the pet eat all it is offered? Yes No

Explain: _____

3. Do you feed the pet separately to other pets? Yes No

4. Who usually feeds the pet? _____

5. How is the food stored until it is fed? (Freezer, air tight container, etc.)

6. Please describe what the pet currently eats in a single day.

Food item (full name of commercial dog food, specific cuts of meat, or specific ingredients)	Preparation method or food	Amount per day
<i>Example: Purina Beyond Simply 9 White Meat Chicken & Whole Barley Recipe Dry Dog Food</i>	<i>Dry food</i>	<i>2 cups</i>
<i>Example: ground beef (85% lean)</i>	<i>Pan- browned</i>	<i>½ lb raw amount</i>

7. Do you provide the pet any treats (even for providing medications)?

Treat name/description	Preparation (if any)	Amount per day

8. Do you provide the pet any supplements or oils (such as fish oil)? If so, please specify.

Supplement (full name and description)	Amount per day
<i>Example: Centrum Silver Men 50+ Tablets</i>	<i>½ tablet</i>

9. Please provide information on previous diets and treats fed to the pet, and the reason these were discontinued.

Food item (full name of commercial dog food, specific cuts of meat, or specific ingredients)	When was it fed	Reason stopped
<i>Example: Hill's Science Diet Puppy Canned Dog Food For Toy And Small Dogs</i>	<i>May 2014-June 2015</i>	<i>Became an adult</i>

Are you interested in a recommendation for a:

Home-prepared diet Commercial diet Both

**in some cases the CSU Clinical Nutrition Service will strongly recommend one option versus the other. For example, there may not be an appropriate commercial diet option for every case.*

Home prepared diet formulation:

Please select ingredients you would like to use (or avoid) for the formulation. Please select ingredients which are both feasible for you to purchase and prepare and that the pet tolerates well and finds palatable.

**Note: Not all ingredients may be appropriate for the pet. For example, potatoes are high in potassium which may be fine for some animals but not appropriate for others. In some cases additional ingredients which are not in the list may be suggested.*

	Ingredient	Desired	Avoid	
Protein	Beef			
	Chicken			
	Dairy			
	Egg			
	Fish			
	Pork			
	Tofu			
	Turkey			
Carbohydrate	Fiber and	Corn		
		Lentils		
		Pasta		
		Peas		
		Potato (white)		
		Rice		
		Sweet potato		
Other				

Supplements:

All home-prepared diets require supplements in order to meet the dog and cat nutritional requirements as preparing a complete and balanced whole foods diet at home is exceedingly difficult. Most formulations will have two possible supplement combinations as options to use.

Are there specific supplements you prefer not to be used in the formulation?

Yes No
