AND BIOMEDICAL SCIENCES

Residency in Equine Sports Medicine and Rehabilitation at Colorado State University

A residency in Equine Sports Medicine and Rehabilitation is being offered by the Department of Clinical Sciences at Colorado State University. The goal of the residency is to expose the individual to the practice of equine sports medicine and rehabilitation in order to qualify for board certification in the American College of Veterinary Sports Medicine and Rehabilitation. The residency program will begin in mid-July and continues for three years.

The resident will participate in clinical teaching of students, rounds, and seminar presentation to peer groups; development of research projects; and coursework leading to a master's degree in the Department of Clinical Sciences. The majority of the clinical training will be spent participating in the evaluation, treatment, and rehabilitation of performance horses in the Equine Sports Medicine Ambulatory service at Colorado State University.

Prerequisites include:

1. DVM degree or equivalent
2. Completion of at least one year of a large animal rotating internship in medicine and surgery or private practice equivalent
3. Eligibility for admission to the graduate school at Colorado State University

The applicant should send the following:

- Curriculum vitae
- A letter of intent that states why a sports medicine and rehabilitation residency program is desired and how it will help the applicant to achieve future career goals
- Transcript of grades including documentation of graduation
- Three letters of recommendation from persons who are familiar with the applicant's qualifications.

The deadline for acceptance of application materials is December 15. All applicants will be notified of their application status by January 15.

Applications will not be submitted through the Veterinary Intern/Residency Matching Program. Instead, all application materials and reference letters should be sent directly via e-mail to (Melissa.king@colostate.edu) and addressed to:
