Residency Program in Equine Theriogenology

How To Apply

Colorado State University will again offer a 2-year residency program in Equine Theriogenology (Reproduction) beginning July 1, 2017. A description of the program is attached. The residency incorporates the following:

1. Clinical reproduction in mares and stallions
2. Foaling out client-owned mares and newborn foal care
3. Participation in undergraduate and veterinary student teaching
4. Participation in continuing education to horse owners and veterinarians
5. Research projects
6. Coursework and other responsibilities for a Plan B Master’s Degree program

The Equine Reproduction Laboratory has a long history of incorporating state-of-the-art reproduction techniques into clinical services provided to horse owners. Residents are expected to carry on this outstanding tradition of discovery, service, and education within the equine breeding industry.

Applications for the residency program should include the following:
   a) Letter of intent
   b) Resume or curriculum vitae
   c) Transcripts
   d) Three (3) letters of recommendation

Please send all materials to:

Dr. Patrick McCue, Equine Reproduction Laboratory 3101 Rampart Road, Fort Collins, CO 80523 or email application materials to pmccue@colostate.edu

Completed applications are due December 15, 2016. Applicants planning to attend the West Coast Equine Reproduction Symposium in Buellton, CA in November 2016 or the Annual Convention of the American Association of Equine Practitioners (AAEP) in Orlando, FL in December 2016, are encouraged to make arrangements by email to meet with Dr. McCue (pmccue@colostate.edu) and Dr. Ryan Ferris (Ryan.Ferris@colostate.edu) at the conference.
