Cryopreservation and Management of Equine Sperm

DATE: October 14-15, 2019
FEE: $950
CE: 10 CE hours for veterinarians

COURSE IS LIMITED TO 8 PARTICIPANTS

The frozen semen course is designed for anyone seriously interested in learning the techniques involved in freezing, thawing, handling and insemination of equine spermatozoa.

Topics to be covered include:
- Response of spermatozoa to freezing
- Preparation of semen for freezing
- Techniques for freezing equine semen
- Proper handling, storage and thawing procedures
- Post-thawing evaluation of semen
- Management of mares for frozen semen and insemination techniques

Hands-on laboratory sessions provide an opportunity for registrants to freeze, thaw and evaluate equine semen.

Previous experience in semen collection, evaluation and insemination procedures or attendance at a CSU Equine Reproductive Management continuing education short course is required as a prerequisite for this course.

The continuing education programs for horse owners provided by Colorado State University are renowned for being practical and thorough with an innovative hands-on approach.

Courses held at the Equine Reproduction Laboratory
Colorado State University, 3101 Rampart Rd., Fort Collins, CO 80521
