

The Problem Mare Laboratory Session

EDUCATIONAL COURSE FOR VETERINARIANS

DATES: September 13, 2021

FEE: \$650

CE: 4 CE hours

COURSE IS LIMITED TO 16 PARTICIPANTS

The goal of this one day, in-person, hands-on laboratory session is to provide veterinarians with an opportunity to learn about common and less common reproductive abnormalities of the mare, as well as current diagnostic and therapeutic techniques that can be incorporated into clinical practice. Participants must complete the virtual Problem Mare course prior to attending this laboratory session. The virtual problem mare course provides the necessary background lecture material to precede the in-person course. Laboratory session is limited to 16 veterinarians.

Continuing education programs for veterinarians provided by Colorado State University are renowned for being practical and thorough with an innovative hands-on approach.

**Courses are held at the Equine Reproduction Laboratory
Colorado State University, 3101 Rampart Rd., Fort Collins, CO 80521**

CSU's ERL reserves the right to cancel courses at any time. CSU's ERL follows all university, State and CDC guidelines in regards to the prevention of COVID-19.
