## Shipped Testes Information Form

Thank you for including this form with your shipment (v 11.4.20)

Stallion Name: \_\_\_\_\_

Has the stallion ever had frozen semen? YES or NO

If so, what extender worked best? \_\_\_\_\_

Was the stallion: Euthanized  Electively Castrated  **OR** he died of natural causes

When and where were the testes collected? (Date and Time) \_\_\_\_\_

Did the stallion have any type of illness prior to collection of the testes? \_\_\_\_\_

Was the stallion treated with any medications prior to collection of the testes? \_\_\_\_\_

### Estimate of Fees:

1. A **\$550** non-refundable deposit and General Stallion Contract is required to collect and evaluate the epididymal sperm. Please include the Payment Form or a check in the package with the testicles or return prior to shipment.
2. An additional **\$575** fee will be charged to freeze the semen, if the motility of the epididymal sperm is determined to be adequate after collection and evaluation.
3. If the sperm motility is below industry standard, we will contact you and not proceed with the cryopreservation or any additional charges unless requested by owner.
4. As part of the freezing protocol, we will perform a test-thaw on one straw to determine post-thaw motility. We will contact you with the results of the test-thaw and discuss storage or shipment options.
5. Semen storage is **\$25/month for up to 400 straws.**
