(970) 297-5000 | CSUVTH.COLOSTATE.EDU 3
Having accepted the position of Interim Hospital Director while continuing my clinical time with the Small Animal Medicine service, I am fully aware and tremendously appreciative of the fact that our referring veterinarians and our area clientele are a critical cog in the operation of this hospital. In fact, I would ask you to think of this as YOUR Veterinary Teaching Hospital – as a land grant institution, we are here to serve you.

This Services Directory is particularly important for 2020 as the hospital continues to offer state-of-the-art veterinary medicine by our world-renowned faculty and staff, and continues to add young, motivated, cutting-edge caregivers to our ranks.

Through these individuals in 28 specialties, we strive to maintain and improve upon the extraordinary care we provide for you, your clients, and their pets.

Each year, we have a new crop of energetic DVM students, interns, and residents who will be eager to help, learning as they go, but always striving to do their very best as burgeoning veterinary professionals.

This is also the year the hospital is implementing a new electronic medical records system, StringSoft, and although we anticipate some growing pains, we have undertaken this herculean task in large part to improve communication with rDVMs and clients. So please be patient, and more importantly, as I
said, please become an active and contributing member in the effort. We want to hear from you, and work with you to continue to provide the level of care and expertise that should be expected from an institution such as the CSU Veterinary Teaching Hospital.

Looking forward,
Craig

Craig B. Webb, PhD, DVM, DACVIM
