Special Appointment Assistant Professor  
Dairy Population Health Management  
Department of Clinical Sciences  
James L. Voss Veterinary Teaching Hospital

**Job Description**  
Non-tenure track, 12-month renewable faculty appointment in the Department of Clinical Sciences

**Qualifications**  
- DVM or equivalent veterinary professional degree is required.  
- Experience in clinical practice and herd health management of dairy cattle is required.  
- Advanced clinical training (residency and/or advanced degree) relevant to dairy cattle health or epidemiology is highly desirable.  
- Experience instructing veterinary students and post-graduate trainees in the health management of dairy cattle is highly desirable.

**Specific Responsibilities**

**Teaching**
- **Clinical:** Provide clinical instruction to 3rd and 4th-year Veterinary Medical Students in the clinical service environment (see Service and Outreach). Up to 34 weeks of clinic assignment will be expected. Participate in the training of interns and residents when they rotate through the dairy field service. Share after-hours, weekend, and holiday emergency coverage with other faculty for livestock cases.  
- **Didactic:** Provide lecture and laboratory instruction for the DVM curriculum on topics related to livestock medicine and production management. This may include as many as 20 hours of lecture per year in the DVM program.  
- **Graduate Training:** Participate in the advising, mentoring, and instruction of interns and residents in areas related to livestock medicine and production management.

**Research and Scholarly Activity**
- Support and collaborate with the research programs of faculty in the large animal sections (livestock or equine) to occupy an estimated 10-15% of time. Current areas of research in the department include epidemiology, infectious diseases, immunology, and food safety.

**Service and Outreach**
- **Clinical Service:** Provide 26-34 weeks per year of direct clinical activity in the Dairy and Livestock Field Services. The Dairy Field Service works with contract dairies, and its caseload consists of reproductive evaluations, diagnosis and management of sick cows, dairy calf health and monitoring, infectious disease control, and records monitoring for dairies local to Fort Collins. The Livestock Field Service sees a variety of livestock species. The successful candidate will provide service in this area in conjunction with other faculty and house staff, as time and interest allow.  
- **Outreach:** Provide consultation for dairy producers and dairy veterinarians in Colorado and other states. Develop and participate in professional continuing education for veterinarians and producers in the livestock industry.
• **Administrative:** Participate in Departmental, College, and University administrative committees.

Salary and start-up packages will be competitive and commensurate with the qualifications of the applicant. Interested individuals should submit a curriculum vitae and a letter of intent to the following link; [http://jobs.colostate.edu/postings/45566](http://jobs.colostate.edu/postings/45566)

Applicants should ensure that their letter of intent highlights their dairy production experience, their experience working with vet students, and any advanced clinical training (e.g. residency, specialty boards) pertinent to the position. References will be contacted upon receipt of application. Applications will be accepted until the position is filled but for full consideration, please submit application materials by July 15, 2017. Additional information is available via email at ClinSciHR@colostate.edu

Colorado State University, with an enrollment of over 25,000 students, is located in Fort Collins at the base of the Rocky Mountains. Less than an hour from Rocky Mountain National Park, Fort Collins is a small city of 135,000 with an outstanding school system, and an extensive park and open space system with many bike and walking trails. Money Magazine has ranked Fort Collins first in “Best Places to Live” in the western U.S. among small cities. Fort Collins has exceptional and abundant outdoor and cultural activities, and the cities of Boulder and Denver are within an hour drive.

Colorado State University (CSU) strives to provide a safe study, work, and living environment for its faculty, staff, volunteers and students. To support this environment and comply with applicable laws and regulations, CSU conducts background checks. The type of background check conducted varies by position and can include, but is not limited to, criminal (felony and misdemeanor) history, sex offender registry, motor vehicle history, financial history, and/or education verification. Background checks will be conducted when required by law or contract and when, in the discretion of the university, it is reasonable and prudent to do so.

Colorado State University is committed to providing an environment that is free from discrimination and harassment based on race, age, creed, color, religion, national origin or ancestry, sex, gender, disability, veteran status, genetic information, sexual orientation, gender identity or expression, or pregnancy and will not discharge or in any other manner discriminate against employees or applicants because they have inquired about, discussed, or disclosed their own pay or the pay of another employee or applicant. Colorado State University is an equal opportunity/equal access/affirmative action employer fully committed to achieving a diverse workforce and complies with all Federal and Colorado State laws, regulations, and executive orders regarding non-discrimination and affirmative action. The Office of Equal Opportunity is located in 101 Student Services.
