NIH SUMMER INTERNSHIPS AND EXTERNSHIP OPPORTUNITIES FOR VETERINARY STUDENTS — 11th Year, 56 Alumni from 23 Colleges of Veterinary Medicine

We are writing to make you aware of opportunities for veterinary students to get experience in research as either a summer intern or as an extern at the National Institutes of Health (NIH). This is our 11th year providing selected veterinary medical students with the opportunity to receive hands-on research experience and to develop skills in scientific research. In addition to working in the laboratory, students also take advantage of other ongoing activities at NIH, such as seminars and meeting with veterinarians performing biomedical research at the NIH and other government agencies. Stipends are available for summer internships.

Students with a variety of scientific and professional interests are encouraged to apply.

Additional information is available at the following link: http://nih-cbstp.nci.nih.gov/prospective_trainees/summer_internship.asp

Information about our past interns and the range of their research experiences is available at the following link.

http://nih-cbstp.nci.nih.gov/prospective_trainees/summer_internship_Alumni.asp

Please submit Applications for Summer Internships before February 1, 2016 at the following webpage: https://www.training.nih.gov/programs/sip

For full consideration, your completed application is needed by Monday, 2/01/2016. At this time, we will begin evaluating and selecting applicants.

In Addition: We ask that all applicants inform us by email to ncimolpathol@mail.nih.gov of their intentions to apply to the Summer Internship Program.

Best Wishes and Thank You,
R. Mark Simpson, D.V.M., Ph.D.
Diplomate, The American College of Veterinary Pathologists
Charles Halsey, D.V.M., Ph.D.
Diplomate, The American College of Veterinary Pathologists
