MIP - Research Associates I, II, or III - Open

Research Associate positions are available in the Department of Microbiology, Immunology and Pathology in the area of infectious disease research. Applicants must have a Bachelor’s degree in microbiology, biology, molecular biology, biochemistry or a closely related field. Candidates with knowledge and experience in one or more of the following fields are preferred: bacteriology, virology, parasitology, pathology, immunology, molecular biology, biochemistry, prion biology or vector biology. A minimum of one-year work experiences is also preferred. The successful candidate will possess a strong work ethic, excellent communication skills and the ability to work as part of a team. Reflecting departmental and institutional values, candidates are expected to have the ability to advance the Department’s commitment to diversity and inclusion.

For full description and to apply go to:  http://jobs.colostate.edu/postings/6013

The successful candidate must demonstrate U.S. employment eligibility at time of application; CSU will not provide visa sponsorship for this position.

Please submit a letter of intent outlining your specific area(s) of expertise, curriculum vitae and the names and contact information of three references. References will not be contacted without prior notification of candidates.

The pool will expire August 31, 2015. Individuals wishing to be considered beyond this date must reapply.

CSU is an EO/EA/AA employer and conducts background checks on all final candidates.
